

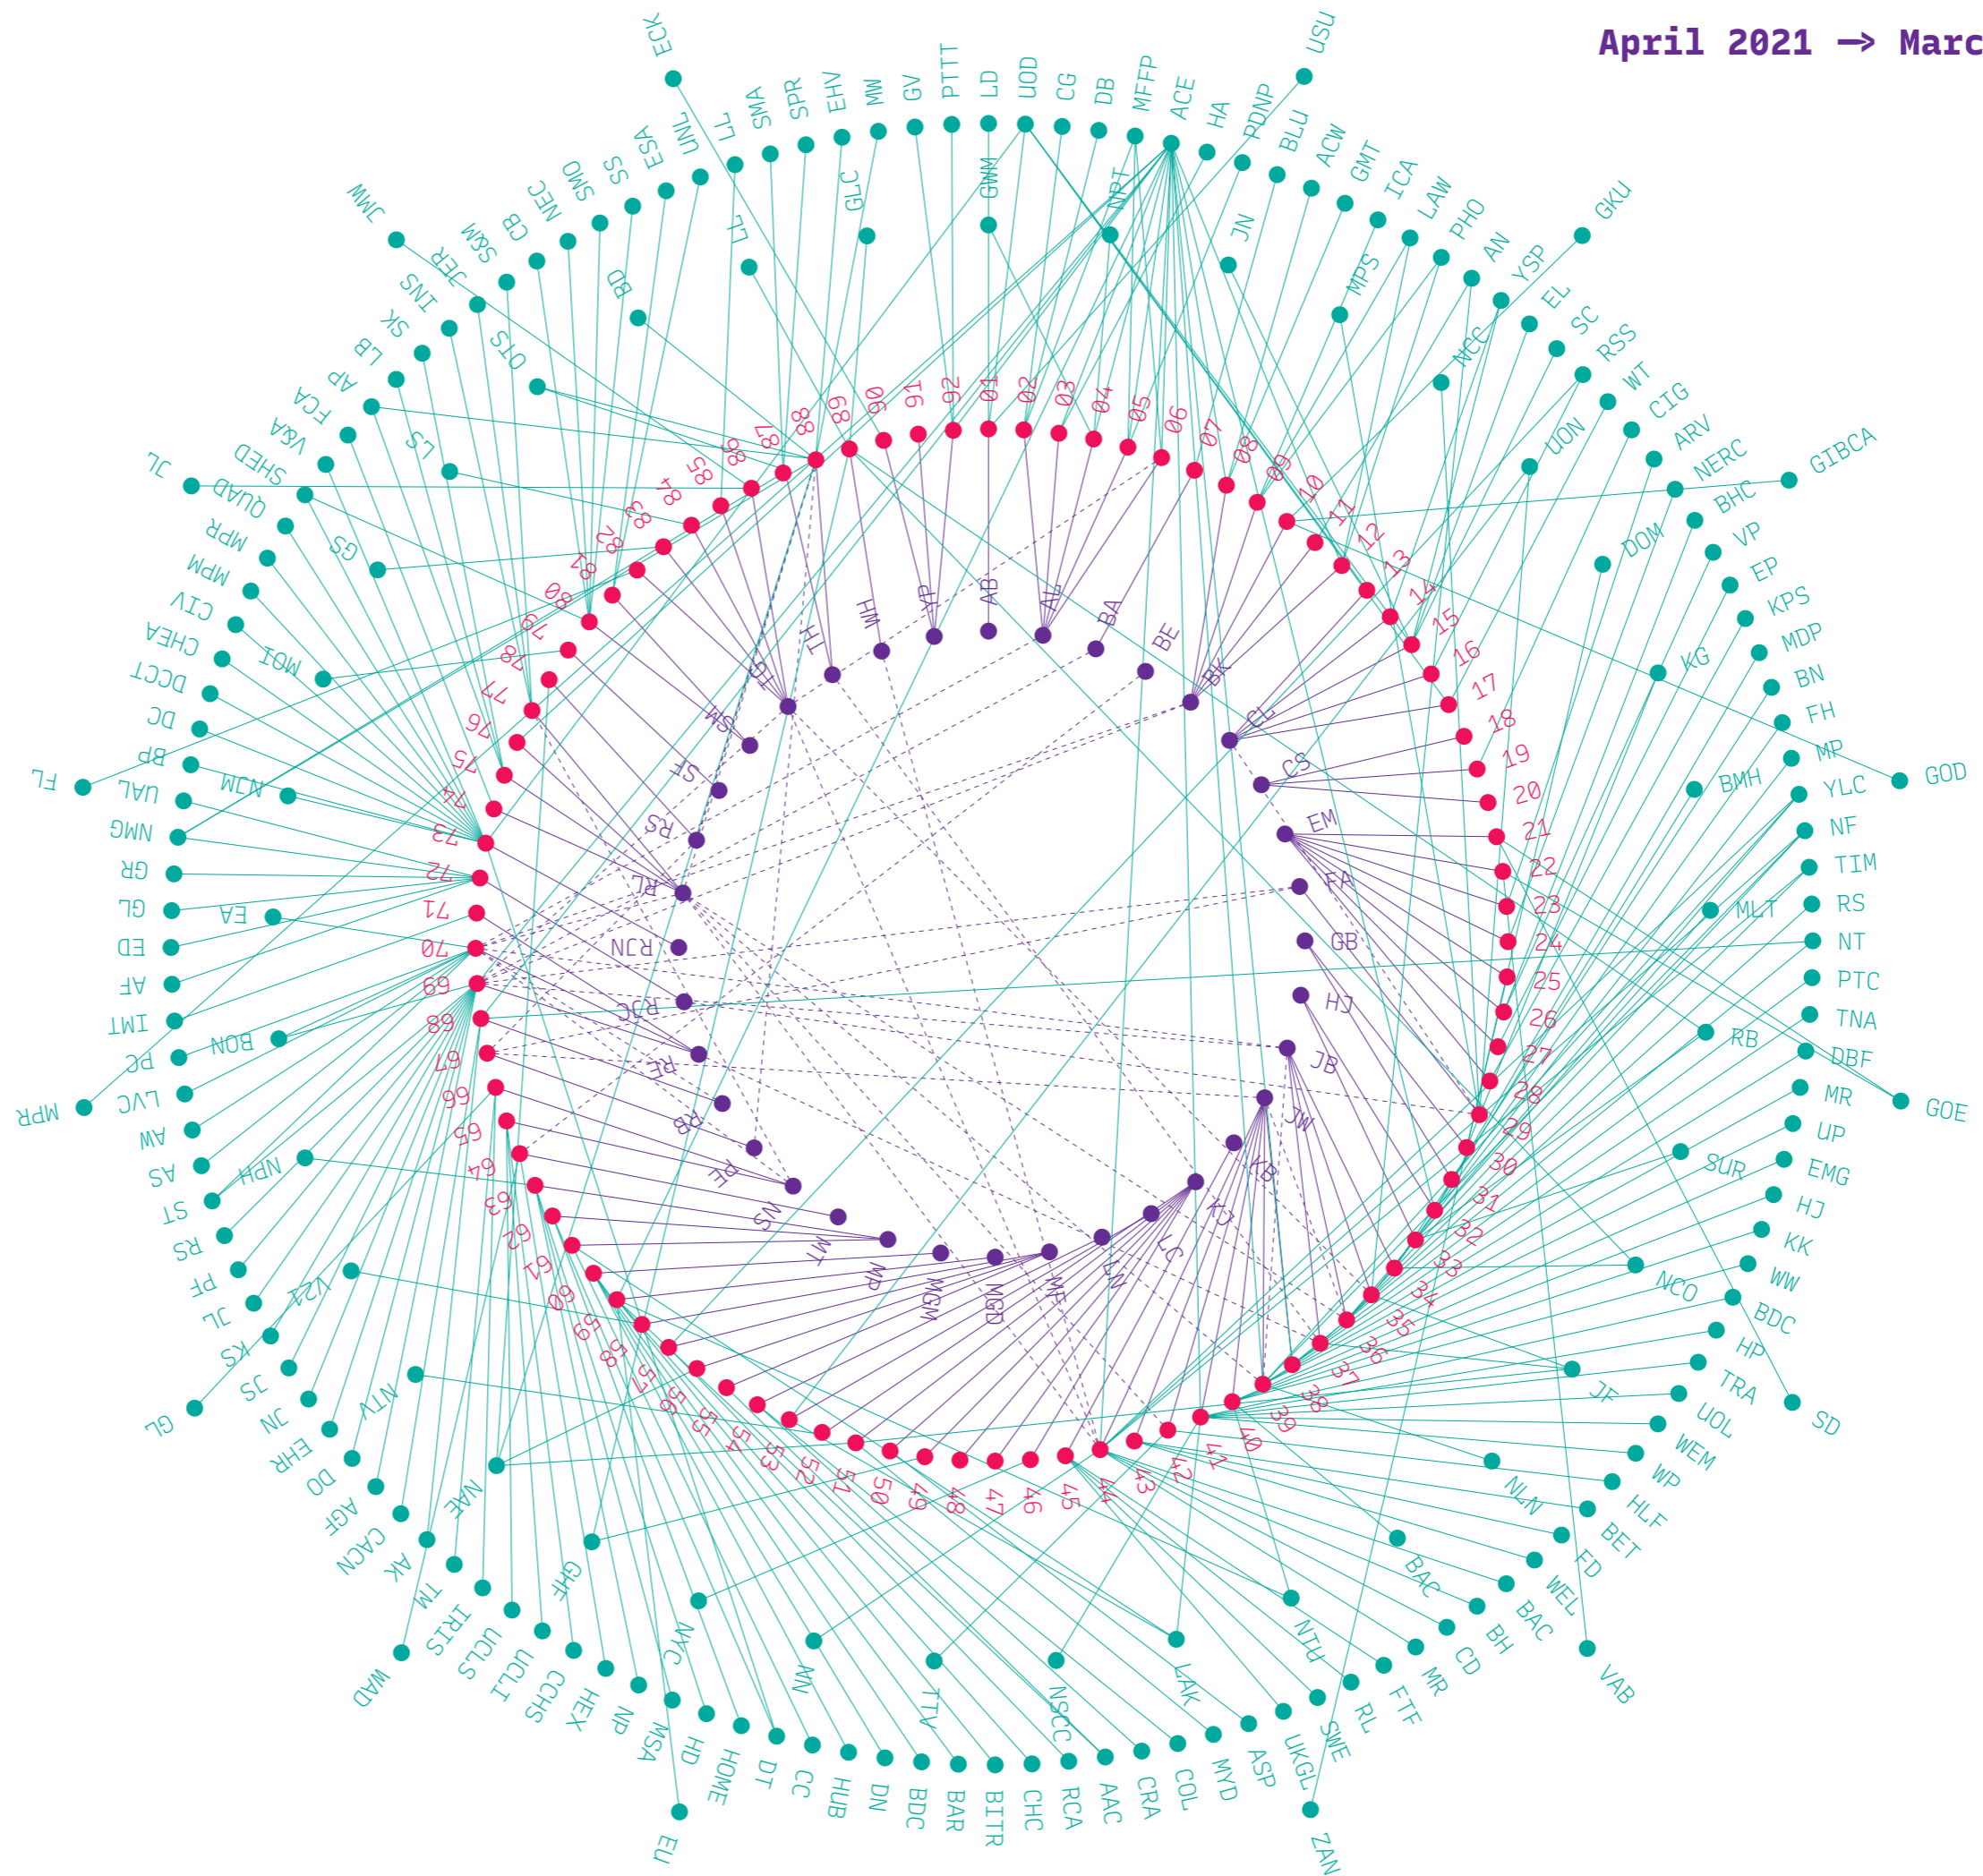

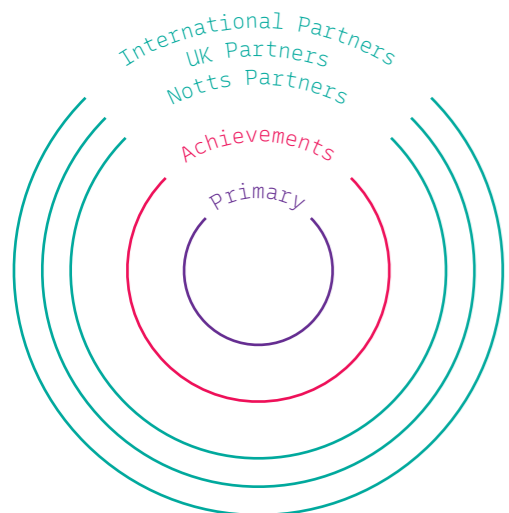

MAPPING PRIMARY

Primary plans to share an annual mapping of resident and member achievements that have taken place over a 12-month period. By bringing together and publishing our creative community's many successes we hope to better communicate with our audiences, partners and funders the ambitious work being created and shared locally, nationally and internationally.

In this, the 2021-22 mapping, we wanted to highlight connections between our residents and members, platforming the projects that see them connect with each other as well as with partners and collaborators based near and far.

We asked residents and members to share their achievements (exhibitions, publications, performances, workshops, funding, awards, research etc.), then worked with Nottingham-based designer and maker Saria Digregorio to process the data and create this dynamic graphic.
